

Message by Rodney Woo
May 15-16, 2010
Devoted to Community
Acts 2:42

1. What do you recall about Pastor Woo's message?

What did you appreciate about the sermon?
Was there anything he said about his multi-cultural church in Houston that you thought would work well at Village?

2. Pastor Woo developed the idea of being "devoted to community."

What does this mean?
How can we at Village be devoted to one another in our multi-cultural context?
How are you personally doing as far as being devoted to others in the body?

3. Personal Contact is important to developing multi-cultural cohesiveness (Acts 8:26-35).

How important is it for us to be spending time together with others at Village?
How well are you doing in this regard?
How well do you observe that the different multi-cultural groups here are doing things together?
How can we do better?

4. Can you think of any other ways we at Village can "cultivate community?"

5. Pastor Woo referred to the key issue of reaching our own local mission field, our surrounding community.

How is Village doing in this regard?
Is there anything you can do personally to help Village better reach our local mission field?

6. How much do you interact with those from other multi-cultural groups at Village? Is there more that is do-able for you?
